

HUNTSMAN  
BOATS  
(NZ) LTD

CRUSADER

## Crusader

The modern attractive appearance, the versatility, the interior layout, the superb performance, the overall quality and the presentation of this boat have quickly established it as another very popular and successful model for CSB Huntsman boats.

### What they said

**NZ Propeller Magazine** "With the Crusader, they have again produced another winner".

**Boating NZ** "The Crusader is a sharp handling boat".

The Crusader is the flagship of the company and offers it all! It has the response and sporty performance of the Dorado and Sport, while offering the size and bulk to handle the offshore white water conditions in safety and style. Getting onto the plane is effortless, it is easy to push, returns an exceptionally soft, dry ride and will leave her owners with a feeling of satisfaction and pride.
